

FLY GUY PRESENTS:

FIREFIGHTERS

A helmet protects their head from falling objects.

An oxygen tank lets them breathe fresh air.

Fire rescue dogs wear extra gear too.

Firefighters have an important and dangerous job. They need about 50 pounds of special gear to stay safe. They get dressed quickly, in less than one minute!

A mask helps them see in smoky places.

Fireproof pants and gloves protect their bodies.

Firefighters are real heroes!
