

JUDY MOODY

Mood Martian

by Megan McDonald
illustrated by Peter H. Reynolds

Will the Real Judy Moody Please Stand Up?

In honor of Backwards Day, Judy Moody decides to turn her frown upside down, make lemonade out of lemons, and be nice to stinky little brothers. In fact, Judy becomes a NOT moody, cool-as-a-cucumber neat freak for one whole entire day. But when her combed hair, matching outfits, and good moods hang around for days afterward, her friends begin to worry. Could this smiley Judy be an impostor?

COMMON CORE CONNECTIONS

Speaking and Listening: Add drawings or other visual displays to stories or recounts of experiences when appropriate to clarify ideas, thoughts, and feelings.

Speaking and Listening: Recount or describe key ideas or details from a text read aloud or information presented orally or through other media.

Picture This

Judy Moody has never taken a nice school picture. In kindergarten she looked like a clown, in first grade she looked like a boy, in second grade she looked like a pirate, and in third grade she looked like Sasquatch. Have your students bring in their old school pictures and give each one a caption. The captions can be funny like Judy's or serious. Then ask students to draw a super-silly selfie re-creating one of Judy's school-picture poses. Invite students to share their creations with the class.

COMMON CORE CONNECTIONS

Speaking and Listening: Engage effectively in a range of collaborative discussions.

Writing Standards: Write narratives in which they recount a well-elaborated event or short sequence of events, include details to describe actions, thoughts, and feelings, use temporal words to signal event order, and provide a sense of closure.

The A Word

When Judy or any of the other students in Class 3T break a rule, they are sent to Antarctica (a desk in the back of the room where they can chill out). Ask your class to recall and discuss the rules and consequences of breaking the rules in your classroom. Then have your students write a narrative about a time when they broke a rule. Prompt them to write about what they did, why they did it, how it made them feel, and what, if anything, they learned from the experience.

COMMON CORE CONNECTIONS

Writing Standards: Write informative/explanatory texts in which they introduce a topic, use facts and definitions to develop points, and provide a concluding statement or section.

Speaking and Listening: Add drawings or other visual displays to stories or recounts of experiences when appropriate to clarify ideas, thoughts, and feelings.

Speaking and Listening: Engage effectively in a range of collaborative discussions.

Bring Your Dreams to Life

One of Judy's favorite things to do is daydream. In her closet, she dreams that she and Mouse sail across the ocean. Let your class sit and daydream for ten minutes. Spark their creativity by telling them to let their minds wander and think about things that make them happy. After the students are finished daydreaming, have them write and illustrate a comic depicting their daydreams. Be sure to invite students to share their finished creations with the class, then publish their work in a classroom comic book.

COMMON CORE CONNECTIONS

Writing Standards: Write informative/explanatory texts in which they introduce a topic, use facts and definitions to develop points, and provide a concluding statement or section.

Yad Sdrawkcat

Inspired by Virginia Dare Elementary, hold a Backwards Day (either in your school or classroom). Try to incorporate as many of Mr. Todd's antics and lessons into your day as possible. You might encourage your students to come to school dressed backwards, rename and rearrange your classroom and bulletin boards, write backwards, hold a palindrome spelling bee, or give students the answers and let them come up with the questions. For homework, have students write essays explaining how Backwards Day was different from the rest of the school year.

COMMON CORE CONNECTIONS

Research to Build and Present Knowledge: Participate in shared research and writing projects.

Speaking and Listening: Engage effectively in a range of collaborative discussions.

Way-Good-Not-Bad Mood-Busters

As Judy finds out in *Judy Moody, Mood Martian*, sometimes it's hard to control your moods. Give your students a piece of yarn to tie around their wrists. Instruct them to switch the yarn from one wrist to another every time they switch moods. Be sure to tell them to keep track of how many times they switch the yarn. At the end of the week, tally up how many mood switches your class has had. As a class, discuss how this mood tracking affected them.

COMMON CORE CONNECTIONS

Research to Build and Present Knowledge: Participate in shared research and writing projects.

Writing Standards: Write informative/explanatory texts in which they introduce a topic, use facts and definitions to develop points, and provide a concluding statement or section.

Speaking and Listening: Recount or describe key ideas or details from a text read aloud or information presented orally or through other media.

Reading Colors

While picking out yarn colors, Amy informs Judy and company that she knows how to read colors, then goes on to tell them what some of their favorite colors represent. Reread this section (pages 89–91) aloud to your class and ask the students to research the meaning of their favorite color. Have them write an informative essay about the color, its meaning, and whether or not they agree with their research findings. Have students share their work with the class.

Speaking and Listening: Engage effectively in a range of collaborative discussions.

The Great Martian Quiz

Judy's experiment being Queen of the Good Mood has her friends and Stink thinking that an alien has taken over her body. As a class, discuss some ways a person might act if an alien took over his or her body. Then come up with a ten-question quiz that could determine whether someone in the class has been invaded by an extraterrestrial being.

The Name Game

In order to find the RAREST color to paint her room, Judy looks at paint samples with funny names like Lav Out Loud, Saltwater Taffy, Frog Prince, and Snow Day. Get some paint samples from a hardware or home-improvement store, cross out the names of the colors, and hand the samples out to your students to rename. Have students share the names they invent with the class, then vote on students' favorites.

Speaking and Listening: Engage effectively in a range of collaborative discussions.

Speaking and Listening: Recount or describe key ideas or details from a text read aloud or information presented orally or through other media.

Ten Things You May Not Know About . . .

At the end of *Judy Moody, Mood Martian* are lists of ten things that readers may not know about author Megan McDonald and illustrator Peter H. Reynolds. Reread these lists to your class, then ask students to create a list of ten things their classmates may not know about them. Invite students to share their lists with the rest of the class.

Judy Moody, Mood Martian

Designer Doorknob Doohickeys

When Judy Moody is in a mood, she hangs a doorknob hanger on her door to try to keep Stink out of her room. Design your own Judy Moody-inspired door hangers to show (or warn) your family how you are feeling before someone knocks on your door.

Judy Moody, Mood Martian

Mood-a-Palooza

As Judy finds out in *Judy Moody, Mood Martian*, it's hard to be in a good mood all the time. Think about what puts you in a good mood and what puts you in a bad mood. Then finish the following statements:

I can always turn to _____ to help put me in a good mood because

_____.

The time I was in the worst mood was when _____

_____.

When I am in a good mood, I _____

_____.

When I am in a bad mood, I _____

_____.

During school I am mostly in a _____ mood because _____

_____.

One thing that puts me in a good mood is _____ because _____

_____.

One thing that puts me in a bad mood is _____ because _____

_____.

If Judy Moody were my friend in real life, I would help her get in a good mood by _____

_____.

Judy Moody, Mood Martian

Measure Up!

Using Judy's method of measuring objects with yarn, find out the length of the following objects:

A car _____

Your bed _____

A STOP sign _____

Your favorite room _____

A window in your house _____

A doorway _____

A shower curtain _____

Your teacher's desk _____

A family member _____

Yourself _____

Bonus measurement: The perimeter of your house or apartment building
